SUBJECT: Right of Way Submittal (D5)

This project involves the reconstruction of IA 92 from west of Kennedy Street to east of N Street in Indianola. The project is divided into a rural and an urban section. The rural section extends from west of Kennedy Street, 2.5 miles to County Road R-63. The urban section extends from R-63 to just east of N Street, a distance of approximately 1.5 miles. The rural part will provide two-lane cross section with a 28 foot pavement and 8 ft. paved shoulders. The paved shoulders will also be shared use paths. Eastbound and westbound right and left turn lanes will be provided at Co. Rd. R-57 and Co. Rd. R-63. In the urban area from Co. Rd. R-63 to just east of Spruce St. a 3-lane roadway will be provided, which will consist of 40 foot back-to-back curbed roadway including a 16 ft. wide continuous center turn lane. A 10 foot wide shared use path is proposed on the north side of the roadway from Co. Rd. R63 east to Spruce Street. A 5 foot wide sidewalk is proposed on the north side of the roadway from Spruce Street east to South M Street. Curb and gutter widening will be done from just east of Spruce Street east to just west of M Street where it meets the existing curb and gutter section.

The rural section of IA 92 west of County Road R63 will be closed to traffic and detoured. Access to the private properties will be maintained during the construction. Traffic on the urban section of IA 92 east of County Road R63 will be maintained via staging. Traffic on Co. Rd. R-57, Co. Rd. R-63, and Y St. will be maintained during construction.

Priority IV (a) access rights are to be acquired on this project from the beginning of the project, Sta. 256+50 to County Road R63, Sta. 391+01.

The project directory is W:\Projects\P0591998\9109201004\Design. No printed plan sheets are included with this submittal. PDF files of the sheets can be found on the network in W:\Projects\P0591998\9109201004\Design\Design Events\D5 folder. Plans and cross section files have been sheeted for batch plotting. The file, ProjectDocumentation_91092051.xlsm has a description of the MicroStation and GEOPAK files, chains and profiles. It also specifies the scale and number of sheets in each file.

Construction need lines required for this project are at the catch (intercept) point and have been added to the design file. The Office of ROW is advised to attach the following design models:

File	Model	Level	Need Type

Culverts have not been completed (B1). Preliminary Bridge Design indicates there will be no right of way impacts due to culvert adjustments.

A final borrow site has been selected and the conceptual borrow design has been determined to be Borrow Site 1 north of IA 92 between Sta. 297+00 and 310+00. This will be a drainable borrow. The borrow location(s) is shown in file W:\Projects\P0591998\9109201004\Soils\91092051_S2.sol. Soils Design indicates there are no stability concerns that would require additional Right of Way.

The mitigation area for this project will be combined with the Warren County Interstate 35 mitigation area at the North River II wetland mitigation site.

There are two locations where the storm sewer outlets on the south side of IA 92 that we are requesting permanent easement. These are at approximate Sta. 395+00 and Sta. 426+00. Needlines have been drawn in these areas.

Utilities on this project are as follows:

Paetac Iowa Communications Network
Lightcore (Digital Teleport)
Iowa Network Service
Indianola Municipal Utilities
MCI
Quest
Mid-American
Mediacom
Warren Rural Water
Kinder Morgan

Survey Information

Warren County
STP-092-5(46)—2C-91
IA 92 From Just W. of Co. Rd. R-57
To S. Kenwood Blvd. in Indianola
04-91-092-010-01
Sap-0482.2

General Information

Measurement units for this survey are US survey feet. This survey is for improvements on IA 2 in Warren County. This field survey was to obtain roadway and drainage features and break lines. The entire digital terrain model and topography in the corridor will be completed by supplemental aerial photography..

Vertical Control
This survey control is relative to NAVD88 Datum in accordance with 3rd. order vertical accuracy. NAVD88 height was transferred to the project at CP # 25 & CP # 35 using averaging redundant IARTN observations applying Geoid 2009. Iowa RTN reference stations are relative vertically to highly accurate National Geodetic Survey (NGS) Reference Stations that are used by NGS for reporting heights relative to NAVD88 datum. A 3-wire level loop was run from CP # 25 through the project benchmarks and ended at CP # 35. The loop error was allowable and the error was distributed proportionately among the project marks

Vertical equations are as follows:

Datum Benchmarks
CP # 25 this survey, elevation 958.76=
G025 Project # STP-092-5(46)--2C-91, elevation 958.86

CP # 35 this survey, elevation 967.18=
G035 Project # STP-092-5(46)--2C-91, elevation 967.14

Horizontal Control

The GPS Network along this project was collected by IDOT Preliminary Survey Crews. Information about that network can be found in the 0482gpspoints.rep file included with this survey in NAD83(1996) Datum.. Iowa State Plane Coordinates were transformed to project coordinates using the following information.

General Information for GPS Project : STP-092-5(46)--2C-91 SAP 482
State Plane Coordinate Zone 1402 (Iowa South Lambert)

Average Project Latitude = 41 21 46.06621
Resulting Radius = 6363322.382 (Meters)
Mean Project Elevation = 279.990 (Meters)
Sea Level Factor = 0.999956001
Average Project Scale Factor = 0.999953270
Combined Factor (Grid) = 0.999909273
1 / Grid = 1.000090735
Vertical Datum = NAVD 88 <> Horizontal Datum = NAD 83 (1996)

Local Project Plane Coordinate Conversion Equation:
a. Local Project Coord y = [(State Plane y - hold point y) 1/grid factor] + hold point y
b. Local Project Coord x = [(State Plane x - hold point x) 1/grid factor] + hold point x

Alignment Information

The horizontal alignment for this survey is a retrace of As-built Plans No. P-569 Survey stationing was equated to the plans at PI Sta. 263+46.7 and carried back and ahead with no equation throughout the survey.
