POINT 25 PROJECT

Robert Sampson
OSP EngineerII-National Network Services
Century Link (formerly Lightcore) (*Local Fiber Optic*)
1151 CenturyTel Drive
Building A
Wentzville, MO 63385

Dear Robert Sampson,

This letter is being sent to satisfy the legal requirements of Iowa Administrative Code 761 - Chapter 115.25:

- 1) Within 7 days of receipt of this letter, you will need to sign and return the "Notice Acknowledgement" portion of the Project Plan Transmittal form.**
- 2) Within 90 days you will need to submit a Preliminary Work Plan to describe what relocations will be required by this project. A Utility Worksheet is enclosed to help you develop a complete Work Plan.**

Your company may have facilities that are in conflict with this project. Please review the enclosed materials to determine if your facilities are in conflict with the proposed highway project and to develop a relocation plan.

We trust you will review this project and if adjustment of your facilities is necessary, the work will be accomplished as much as possible prior to the highway construction. If you need help at the site of this project, please contact the Resident Construction Engineer's Office in charge of this project located at US 34 West, PO Box 733, Chariton, IA 50049, 641-774-5056 or 800-881-5778 or scott.sommers@dot.iowa.gov. This office will also invite you to the preconstruction meeting. Your representation at this meeting is recommended since specific project scheduling and staging will be determined at that time.

Should the final location of any of your relocated or adjusted facilities fall within the highway right of way, it is necessary that a new utility permit be filed with the Engineering Operations Technician at US 34 West, PO Box 733, Chariton, IA 50049, 641-774-2420 or 800-283-9731 or dale.obrien@dot.iowa.gov. The permit should be approved prior to your construction.

A blank permit form may be obtained from the (EOT) or on the Iowa DOT website at <https://forms.iowadot.gov/FormsMgt/External/810025.pdf>.

Your cooperation and efforts in this highway improvement project will be greatly appreciated.

Attached in the email for your use are the following:

1. U3Planset [ftp://165.206.203.34/TASUtilityCoordinationPlans/STP-092-5\(51\)--2C-91/U3Planset.pdf](ftp://165.206.203.34/TASUtilityCoordinationPlans/STP-092-5(51)--2C-91/U3Planset.pdf)
2. List of utility companies and contact people for this project. This list may help you in coordinating your relocation work with other utilities.

DEADLINES: As stated on the Project Plan Transmittal, we will need your **Preliminary Work Plan or the enclosed Utility Worksheet and sketches by 1/14/2013.**

This project's plan turn-in date is scheduled for 11/05/2013, with a construction letting scheduled for 01/22/2014.

We appreciate your cooperation and assistance in our project development efforts.

Sincerely,

Jeffrey N. McCollough

MCI/Verizon Business (*Local Fiber Optic*)
2400 North Glenville
Richardson, TX 75082

Dear Dean Boyers,

This letter is being sent to satisfy the legal requirements of Iowa Administrative Code 761 - Chapter 115.25:

- 1) **Within 7 days of receipt of this letter, you will need to sign and return the "Notice Acknowledgement" portion of the Project Plan Transmittal form.**
- 2) **Within 90 days you will need to submit a Preliminary Work Plan to describe what relocations will be required by this project. A Utility Worksheet is enclosed to help you develop a complete Work Plan.**

Your company may have facilities that are in conflict with this project. Please review the enclosed materials to determine if your facilities are in conflict with the proposed highway project and to develop a relocation plan.

We trust you will review this project and if adjustment of your facilities is necessary, the work will be accomplished as much as possible prior to the highway construction. If you need help at the site of this project, please contact the Resident Construction Engineer's Office in charge of this project located at US 34 West, PO Box 733, Chariton, IA 50049, 641-774-5056 or 800-881-5778 or scott.sommers@dot.iowa.gov. This office will also invite you to the preconstruction meeting. Your representation at this meeting is recommended since specific project scheduling and staging will be determined at that time.

Should the final location of any of your relocated or adjusted facilities fall within the highway right of way, it is necessary that a new utility permit be filed with the Engineering Operations Technician at US 34 West, PO Box 733, Chariton, IA 50049, 641-774-2420 or 800-283-9731 or dale.obrien@dot.iowa.gov. The permit should be approved prior to your construction.

A blank permit form may be obtained from the (EOT) or on the Iowa DOT website at <https://forms.iowadot.gov/FormsMgt/External/810025.pdf>.

Your cooperation and efforts in this highway improvement project will be greatly appreciated.

Attached in the email for your use are the following:

15. U3Planset [ftp://165.206.203.34/TASUtilityCoordinationPlans/STP-092-5\(51\)--2C-91/U3Planset.pdf](ftp://165.206.203.34/TASUtilityCoordinationPlans/STP-092-5(51)--2C-91/U3Planset.pdf)

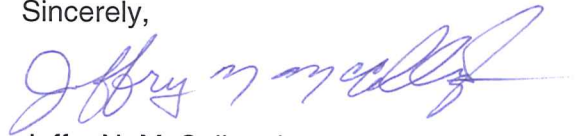

16. List of utility companies and contact people for this project. This list may help you in coordinating your relocation work with other utilities.

DEADLINES: As stated on the Project Plan Transmittal, we will need your **Preliminary Work Plan or the enclosed Utility Worksheet and sketches by 1/14/2013.**

This project's plan turn-in date is scheduled for 11/05/2013, with a construction letting scheduled for 01/22/2014.

We appreciate your cooperation and assistance in our project development efforts.

Sincerely,

Jeffrey N. McCollough
