

Form 810025 (03-16)

**APPLICATION AND AGREEMENT FOR USE OF  
HIGHWAY RIGHT-OF-WAY FOR UTILITIES ACCOMMODATION**

FOR DEPARTMENT USE ONLY

Permit Number <b>29U-2018-002</b>	Highway Number <b>US 61</b>	County <b>Des Moines</b>
DOT Project Number <b>NHSX-61-2 (62) --3H-29</b>		Expiration/Completion Date <b>03/31/2018</b>

APPLICANT (INDIVIDUAL OR COMPANY)

First Name <b>Brent</b>	Middle Initial	Last Name <b>Giese</b>	Phone Number <b>319-588-7285</b>	Ext.
Company Name <b>CenturyLink</b>			Phone Number	Ext.
Street Address <b>900 Locust St</b>		City/Town <b>Dubuque</b>	State <b>IA</b>	ZIP Code <b>52001</b>
e-Mail Address <b>brent.giese@centurylink.com</b>		Secondary e-Mail Address		

## INSTALLATION TO BE ACCOMMODATED

Approval is hereby requested to enter within the state highway right-of-way for the accommodation of a utility installation as detailed on the attachments and further described as follows:

The installation shall consist of:

This IADOT permit is to place new fiber cable and copper cable between Burlington and Mediapolis for the U.S. 61 Reconstruction project #NHSX-061-2(52)-3H-29. The new cables will be placed due to the realignment and grading of U.S. 61. See sheets for new locations of cables.

and shall be located as shown on the detailed plan attached hereto. (See current Iowa Department of Transportation Utility Accommodation Policy for submittal of detailed plan requirements. See Section 115.8 (3).) <http://www.iowadot.gov/traffic/pdfs/UtilityPolicy.pdf>

## WORK SITE LOCATION

The proposed work as described above is located in Section 24 , Twp. 70N . Range 3W on Highway No. 61 generally located .9 (miles) northwest (direction) from UA 61 from MP 43 to Upper Flint/Bottom Flint Rd (city, county line, or other landmark). Work proposed is more specifically located as being from **43.41** (Milepost #) and **1166+68** (Highway Station) to **44.33** (Milepost #) and **1214+44 1219+00** (Highway Station) on the west both side of highway.

**Disclosure Statement:** The information furnished on this form will be used by the Department of Transportation to determine approval or denial of the application. Failure to provide all pertinent information will result in denial of the application. Information furnished is public information and copies may be provided to the public upon request.

The utility company, corporation, applicant, permit holder or licensee, (hereinafter referred to as the Permit applicant) agrees with the Iowa Department of Transportation (hereafter referred to as the Department) that the following stipulations and those special requirements as listed on this document shall govern under this permit after it is approved by the Department.

**A. General**

1. The installation shall meet the requirements of local municipal, county, state, and federal franchise rules and regulations, regulations and directives of the Iowa State Commerce Commission; the Iowa Department of Natural Resources, all rules and regulations of the Department and any other laws or regulations applicable.
2. The Permit Holder shall be fully responsible for any future adjustments of the facilities within the established highway right-of-way caused by highway construction or maintenance operations.
3. As per Section 115.8(8) of the Utility Accommodation Policy, As-Built plans are due within 90 days after completion of construction, the utility owner shall submit to the district representative an as-built plan.
4. The work described in this permit shall be completed as proposed in compliance with the stipulations and special requirements within one year from the date Department approval is received for said request. Failure on the part of the Permit Holder to abide by the stipulations or in constructing the work described as stipulated and within the time frame stated shall render this agreement and request null and void. The Permit Holder also agrees to save the State of Iowa and the Department harmless of any damages or losses that may be sustained by any person, or persons, on account of the conditions and requirements of this agreement.
5. Non-compliance with any of the terms of the Department's policy, permit, or agreement, may be considered cause for shut-down of construction operations, revocation of the permit, or withholding of relocation reimbursement and/or withholding of future application approvals until compliance is confirmed. The cost of any work deemed necessary to be performed by the State in removal of non-complying construction will be assessed against the Permit Holder.

## **B. Construction and Maintenance**

1. The location, construction and maintenance of the utility installation covered by this application shall be in accordance with the current Department's Utility Accommodation Policy. <http://www.iowadot.gov/traffic/pdfs/utilityPolicy.pdf>
2. Before beginning any work in the highway right-of-way, it is the responsibility of the Permit Holder to obtain an easement from the drainage district if necessary. The Department assumes no responsibility for advising the Permit Holder of each location of a drainage district crossing. It is the Permit Holder's responsibility to locate these crossings and obtain any necessary easements or permission from the drainage district. See Code of Iowa, Chapter 468 for additional information.
3. A copy of the approved permit shall be available on the job site at all times for examination by Department personnel.
4. Operations in the construction and maintenance of this utility installation shall be carried on in such a manner as to cause minimum interference to or distraction of traffic on said highway.
5. Traffic protection shall minimally be in accordance with Part VI of the current Manual on Uniform Traffic Control Devices for Streets and Highways. The applicant shall be responsible for correctly using traffic control devices including signs, warning lights, and channelizing devices as needed while work is in progress or the clear zone is impacted. Flagging operations are the responsibility of the applicant. The Department's TC XXX Series Standards are the preferred traffic control specification plans.  
[http://www.iowadot.gov/design/etdpine\\_tc.htm](http://www.iowadot.gov/design/etdpine_tc.htm)
6. The applicant shall seed and mulch all disturbed areas within the highway right-of-way and shall be responsible for the vegetative cover until it becomes well established. Any surfaced areas such as driveways or shoulders and sodded waterways and plantings which are disturbed shall be restored to their original condition. Any damage to any other underground facilities during installation shall be repaired at the permit holder's expense.
7. All personnel in the highway right-of-way shall wear ANSI 107 Class 2 apparel at all times when exposed to traffic or construction equipment.
8. As per Policy Section 115.4(9) parking or storage in the clear zone is prohibited. When not in actual use, vehicles, equipment and materials shall not be parked or stored within the clear zone or median.
9. Unless specifically noted in Special Requirements section, all work performed within the right-of-way shall be restricted to 30 minutes after sunrise to 30 minutes before sunset.
10. Pedestals shall be placed within 12 inches of the right-of-way line.
11. All above and below ground appurtenances (pedestals, hydrants, drains, accesses, etc.) shall be marked with high visibility posts and signs. The minimum height requirement for the signs shall be 5 foot. Urban Roadway Sections may be exempted with department approval.

## **C. Liability**

1. To the extent allowable by law, the Permit Holder agrees to indemnify, defend, and hold the Department harmless from any action or liability arising out of the design, construction, maintenance, placement of traffic control devices, inspection, or use of the Permit Holder's facilities. This agreement to indemnify, defend, and hold harmless applies to all aspects of the Department's application review and approval process, plan and construction reviews, and funding participation.
2. The Permit Holder shall indemnify and save harmless the State of Iowa, its agencies and employees, from any and all causes of action, suits at law or in equity, for losses, damages, claims or demands, and from any and all liability and expense of whatsoever nature, arising out of or in connection with the Permit Holder's use or occupancy of the public highway.
3. The State of Iowa and the Department assume no responsibility for damages to the Permit Holder's property occasioned by any construction or maintenance operations on said highway if the facilities are not located in accordance with this permit.
4. The State of Iowa, its agencies or employees, will be liable for expense incurred by the Permit Holder in its use and occupancy of the highway right-of-way only when negligence of the State, its agencies or employees, is the sole proximate cause of such expense. Whether in contract, tort or otherwise, the liability of the State, its agencies and employees, is limited to the reasonable, direct expense to repair damaged utilities, and in no event will such liability extend to loss of profits or business, indirect, special, consequential or incidental damages.

## **D. Notification**

1. The Permit Holder is responsible for contacting Iowa One-Call (1-800-292-8989) and request the location of all underground utilities forty-eight (48) hours before excavation. Before beginning work in the highway right-of-way, the Permit Holder shall also contact any other known utility located in the area of the proposed work.
2. The Permit Holder agrees to give the Department forty-eight (48) hour notice of its intention to start construction or to perform routine maintenance on the highway right-of-way. Said notice shall be made to the local DOT contact person whose name is shown on Page 3.
3. **511 Notification**-In accordance with Iowa Code section 321.348, cities and utilities **may not obstruct or close primary highways or primary highway extensions (State highways within city limits) without prior consent of the Iowa DOT**, except in emergency situations. Before setting up a lane closure or a vertical/horizontal restriction of any kind on a primary highway, call your local Iowa DOT Maintenance garage and call the Traffic Management Center per attached documents. Except in emergency situations, a 10 day advance notice is required.  
<http://www.iowadot.gov/traffic/utility/pdfs/511UtilityNotification.pdf>

## **E. Buy America**

Buy America applies to relocations of utility facilities that must move due to highway projects under certain specific conditions that include reimbursable locations and relocations due to interstate projects.  
Please contact the Department's District Engineering Operation Technician (EOT) for more information on Buy America requirements or visit the following link: <http://www.iowadot.gov/traffic/utility/utility.htm>

Permit Number: 29U-2018-002

## FOR DEPARTMENT USE ONLY

**Special Requirements** - in addition to the stipulations above, the following special requirements shall apply to this permit:

**Applicant Signature and Agreement**

The undersigned have read the stipulations of this permit agreement as stated, as well as attachments which may be included, and by signing this application agree to abide by all stipulations and to complete the work as proposed in compliance with the stipulations and attachments within one year from the date Department approval is granted for said request. Failure on the part of the applicant to abide by the stipulations or to construct the work desired as stipulated and within the time frame stated shall render this agreement and request null and void. The undersigned also agrees to save harmless the State of Iowa and the Iowa Department of Transportation from any damage or losses that may be sustained by any person or persons on account of the conditions and requirements of this agreement.

Name of Agent (Print or Type) <i>Brent Giese</i>	Agent/Owner (Signature) 	Title <i>Engineer II</i>

Notices of lane closure or height restrictions on Iowa primary highways – LANE CLOSURE RESTRICTIONS AND PROCEDURES

Office of Traffic and Safety  
800 Lincoln Way Ames, Iowa 50010  
Phone: 515-239-1014  
Email: ryan.bradley@dot.iowa.gov

**To:** Contractors initiating a lane closure on public primary highways  
**Subject:** Notification of width or height restrictions on Iowa primary highways

Date: February 17, 2014

Iowa DOT is working hard to improve the accuracy of the information provided by the Iowa Highway Accurate Information System (<http://511ia.org>) but we need your help. Besides providing real-time information to the traveling public, this system is also used by the Iowa DOT to route oversize loads. Having accurate information on the location, extent and duration of lane restrictions is critical for their routing processes.

Even short term partial closures can have a significant impact on the operation of highway system. The Iowa DOT is setting up a lane closure or any vertical/horizontal restriction on a primary highway, call your local Iowa DOT maintenance garage, as shown on the Iowa DOT Districts web page, <http://www.iowadot.gov/districtshome.html> to discuss timing and date of the closure/restriction. Once the maintenance garage concurs with the timing and date, it is your responsibility to call the Iowa DOT Traffic Operations Center (TOC) at (515-239-1440). The TOC will add the information to the 511 DOT Traffic Operations Center (TOC) at (515-239-1440). The TOC will add the information to the 511

restriction. It is advised you have this information (last 2 pages) when you call the TOC. The same when providing notice to the Iowa DOT, you will need to supply detailed information about the

situations, notification should be provided as soon as possible.

work with the permit holders and DOT Maintenance office to resolve the conflicts. In emergency not possible, MCS will have to check for permitted loads on those routes for possible conflicts and a 10 day notice as permits for oversize loads are issued up to 10 days in advance. If a 10 day notice is for except in emergency situations, 48 hour advance notice is the minimum required. The preference is for

emergency work.

This notification does not replace the need for a permit application. Permits are required for utility accommodation and for any and all work on right of way, except

District office.

Before setting up a lane closure or a vertical/horizontal restriction of any kind on a primary highway extension, call your local Iowa DOT maintenance garage to discuss timing and date of the closure/restriction. Once the maintenance garage concurs with the timing and date, call the Iowa DOT Traffic Operations Center (TOC) at **515-239-1440**. The TOC will put the information in the 511 system, which generates an automatic message to Iowa DOT Motor Carrier Services (MCS) and the District office.

## 511 Information Required

Times of closure:

Continuous    Weekdays (Monday – Friday)    Nights

Times of closure

Project ending date and time:

Project beginning date and time:

Additional public website comments:

If yes, please describe:

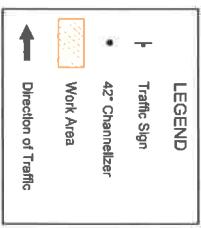

Yes    No  
Are there any other width or height restrictions:

If yes, please provide the location of the temporary overhead signals in the space provided.

Yes    No  
Will there be temporary overhead signals? (15' standard height restriction)

Additional project information (pilot car, flagger, etc.):

- Two center lanes are closed
- Left exit ramp closed
- Shoulder closed
- Bridge closed
- Intersecting road closed
- Single lane traffic alternating directions
- Opposing traffic
- Work in the median
- Road construction
- Lane closures in area
- Left lane of exit ramp closed
- Local road closures in area

SPEED LIMIT (mph)	A	B	C	T
35 or less	500'	250'	40'	100'
35 - 45	700'	350'	80' (1)	200'
50 or greater	1000'	500'	100' (1)	200'

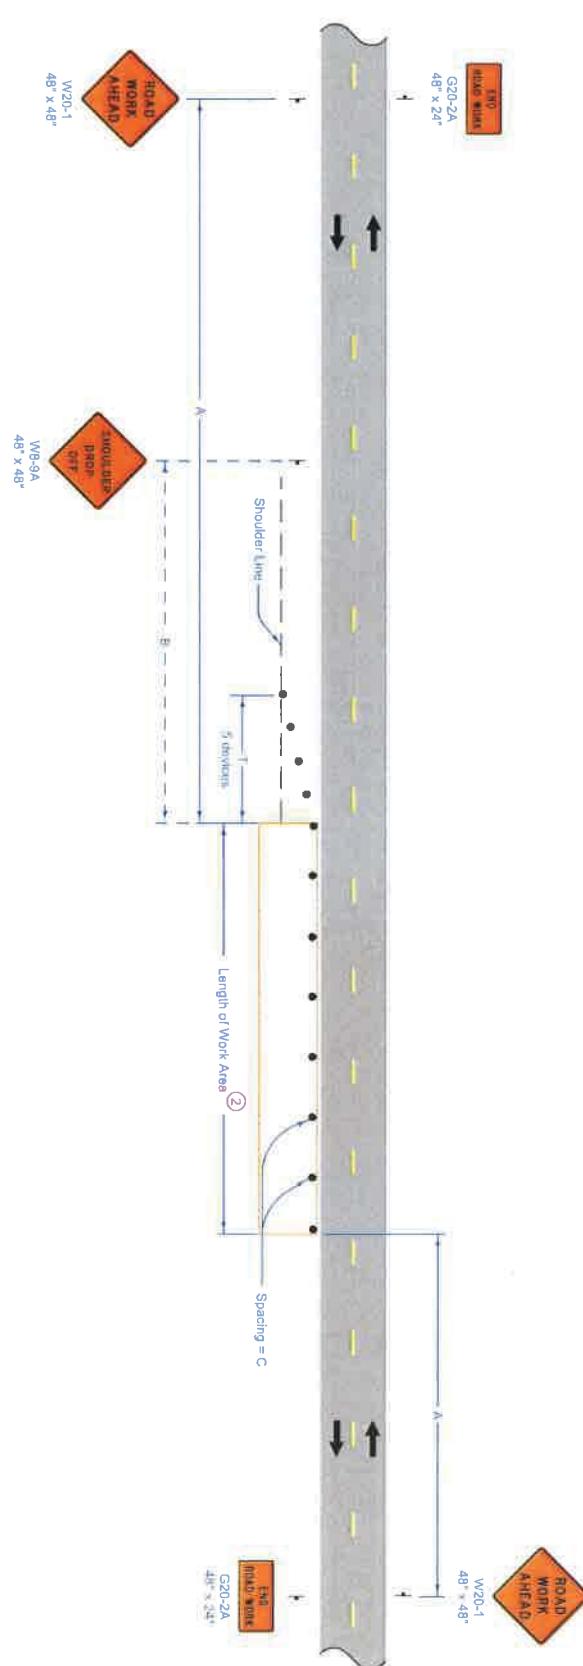

When a pavement edge drop-off exists, install a SHOULDER DROP-OFF sign.

No pavement edge drop-offs greater than pavement depth will be allowed during non-working hours.

Shoulder edge drop-offs shall be mitigated according to Article 1107.08.L2 of the Standard Specifications.

For work lasting less than one hour, refer to TC-1.

- (1) When the length of a pavement edge drop-off is 1000 feet or less, the temporary fillet requirement of Article 1107.08 of the Standard Specifications does not apply. Reduce channelizer spacing to 40 feet.
- (2) For work areas less than 200 feet long use channelizers spaced at 20 foot centers or use a vehicle with an amber revolving light or amber strobe light.

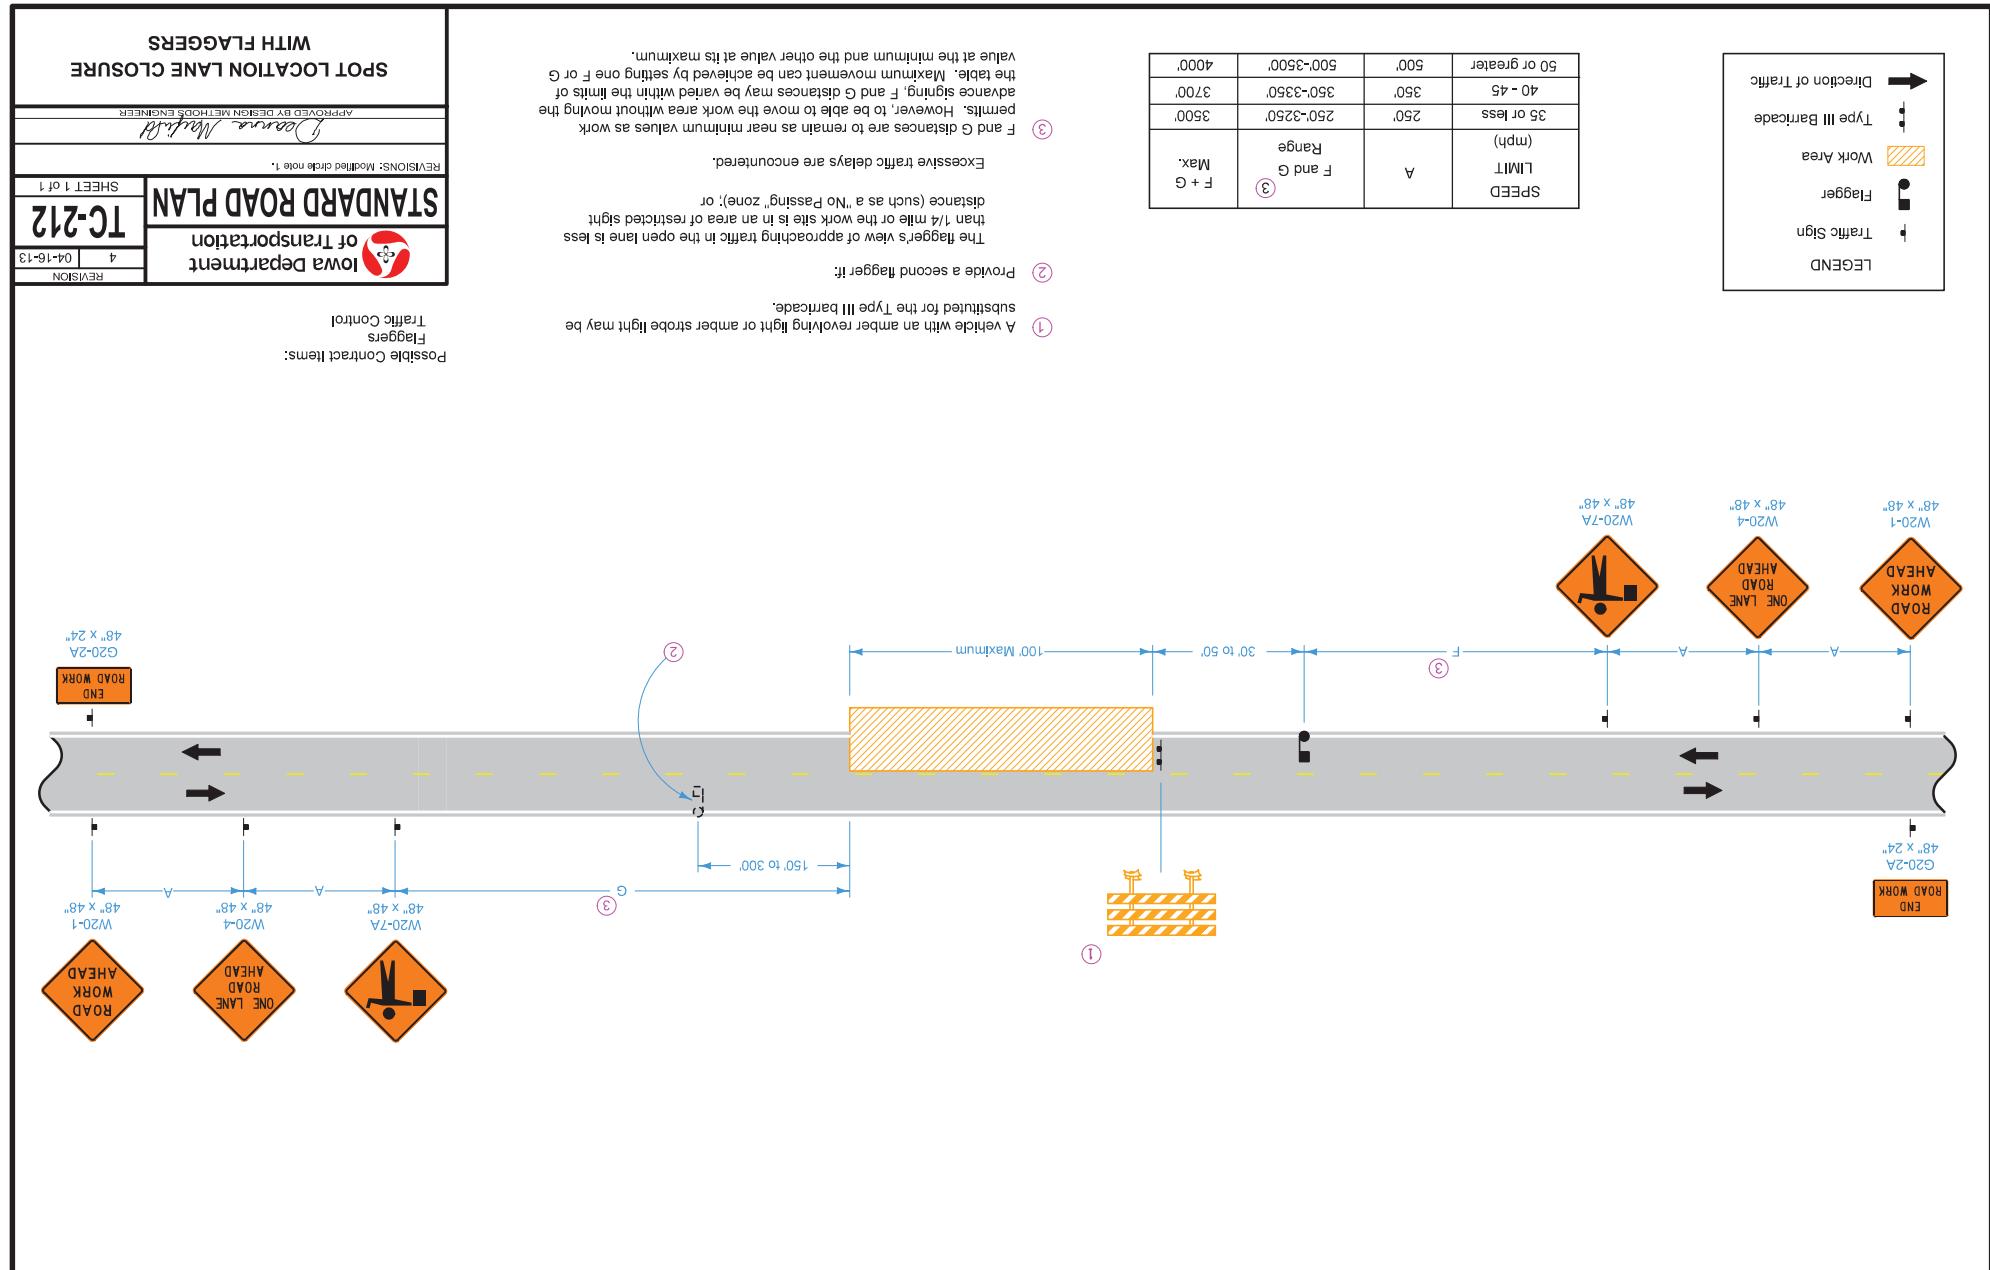

Possible Contract Item:  
Traffic Control

THIS IS THE NEW VERSION

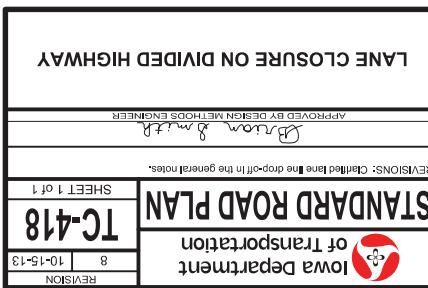

WORK WITHIN 15 FT  
OF TRAVELED WAY

LANE CLOSURE ON DIVIDED HIGHWAY

Remove or cover all existing signs that conflict with 55 mph speed limit while 55 mph speed limit is in effect.

Line drop-offs greater than a nominal 4 inches are not allowed during non-working hours.

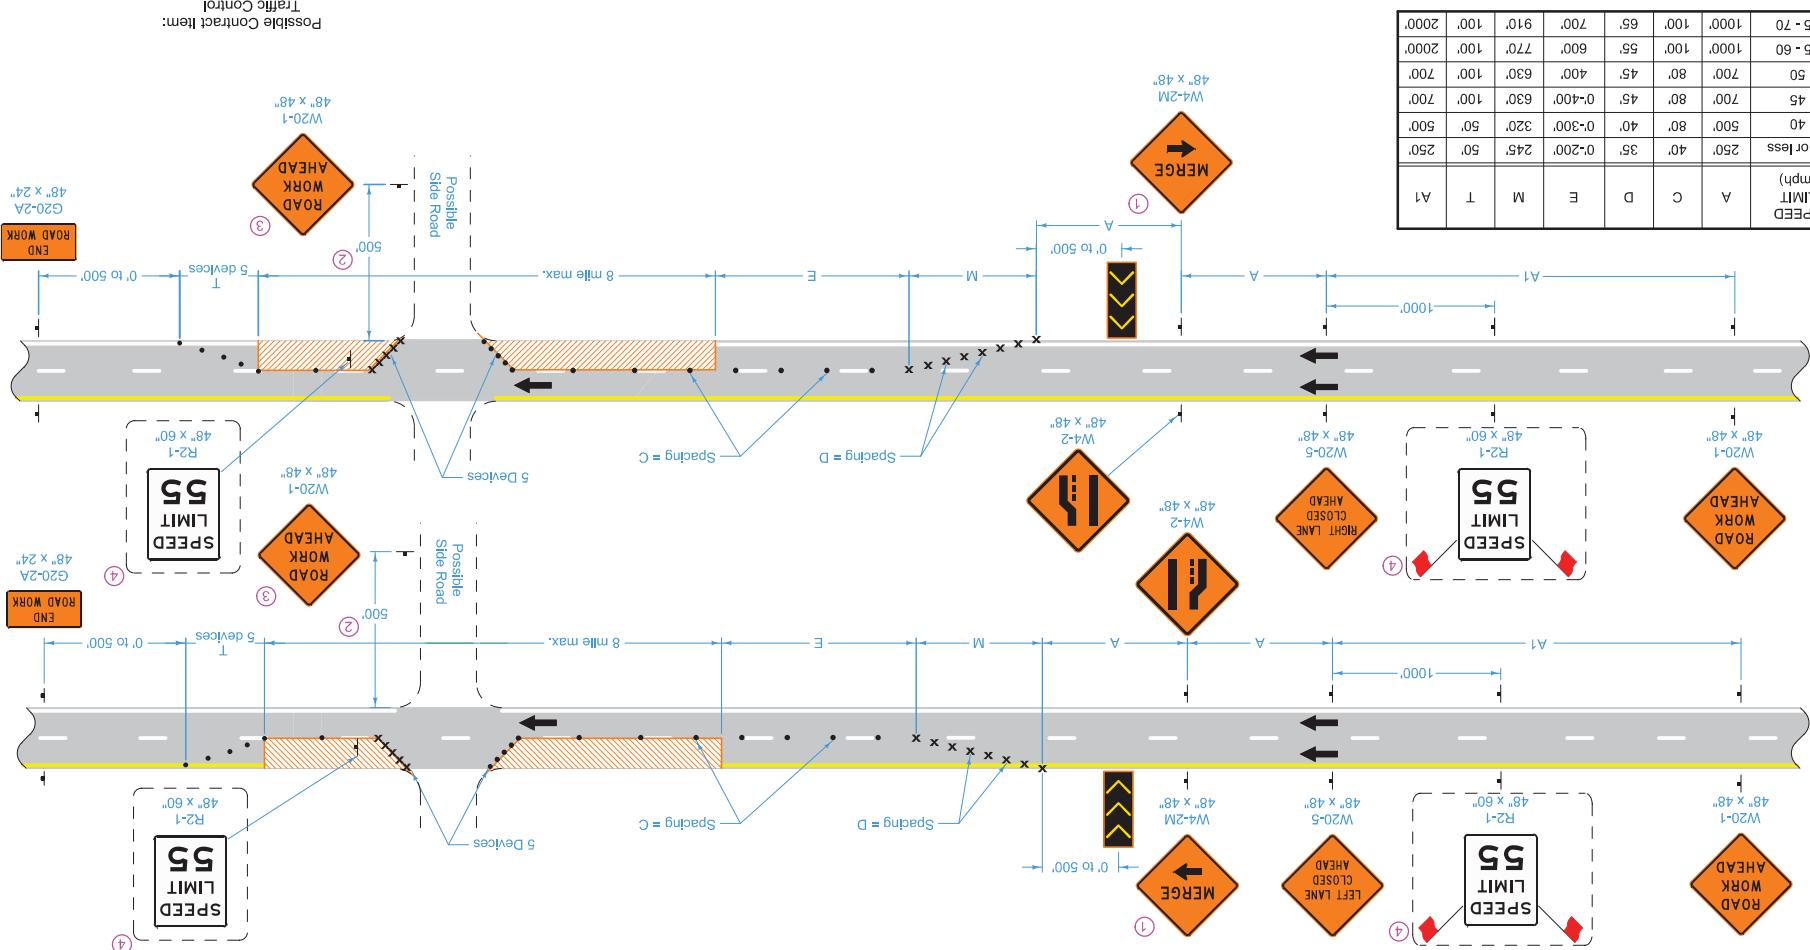

- ① Refer to **S1881** for sign details.
  - ② Where side road speed limit is 40 mph or less, a distance of 200 feet is allowed.
  - ③ Place a ROAD WORK AHEAD sign on the opposite side of the intersection in a similar location.
  - ④ For roadways with a posted speed limit of 60 mph or greater before

Place **RIGHT LEFT LANE CLOSED 4 MILES** and **RIGHT LEFT LANE CLOSED 2 MILES** signs (W2-5) on both sides of the roadway 4 miles and 2 miles in advance of the lane closure, respectively. As shown below, a lane line drop-off or use, do not allow traffic to cross opposite lanes.

The legend consists of five entries, each with a colored square followed by a symbol and text:

- Work Area (Yellow square)
- Arrow Board (Orange square)
- Channelelizer (Blue square)
- Drum (Red square)
- Traffic Signal (Green square)

SPEED LIMIT (mph)	A	C	D	E	M	T	A1
35 or less	250.	40.	35.	0-200.	245.	50.	250.
40	500.	80.	40.	0-300.	320.	50.	500.
45	700.	80.	45.	0-400.	630.	100.	700.
50	700.	80.	45.	400.	630.	100.	700.
55 - 60	1000.	100.	55.	600.	770.	100.	2000.
65 - 70	1000.	100.	65.	700.	910.	100.	2000.

Idle Line Repair Guide

"Roadway Embankment Area" is defined as the area lying between the foreslopes of a two-lane roadway and from near foreslope to far foreslope of a four lane roadway.

3. Area shall require inspection by the Iowa Department of Transportation Inspectors or their designated personnel prior to backfilling of trench.

A. Backfill and compact area around drain tile to be  
compacted by hand until new tile is completely covered.

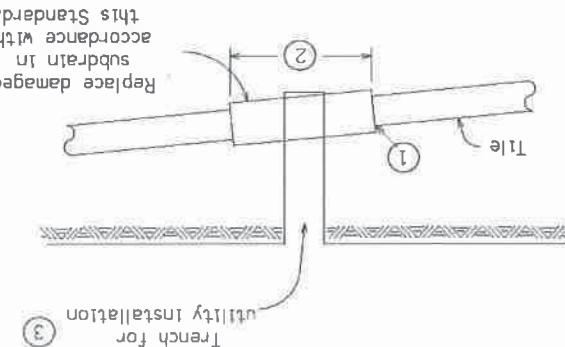

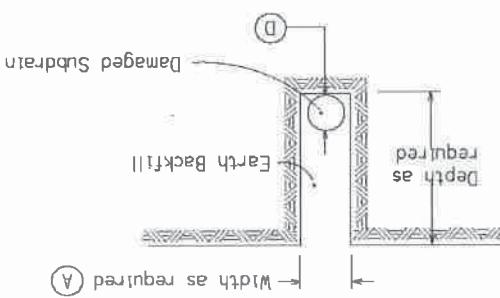

(3) Trench shall be backfilled with 8 inches loose material, compacted to 6 inches with a minimum of 95% compaction of natural density.

② Minimum length of corrugated metal pipe shall be 4 feet.

\* Replaced eccentricity equivalent capacity based on 6" settlement assuming a 0.20% slope with  $n = 0.013$  for concrete pile and  $n = 0.025$  for corrugated pipe (Manning formula)

REPLACEMENT SCHEDULE - CASE A'									
EXISTING TIE @ 4 6 8 10 12 15 18 21 24 >24									
PROPOSED SLABSPAN SIZE									
Caged C.M.P.	10	12	15	18	21	24	30	36	*
Concrete Pipe	-	12	15	15	18	21	24	30	D+6"

A = A minimum of 24" shall be excavated outside the normal utility trench wall or such greater width as may be required to expose a minimum of 12" of undamaged drain tile.

NOTE: Replacement of drainage tile shall be accomplished so as to cause the minimum of disturbance to existing functional condition, regrouting shall be left in a flexible tile. The repacked drainage tile shall be placed in a multi-lining existing flow line elevations.

**NOTES:**

① Concrete collar to be placed around joint where existing pipe connects.

shall be replaced in accordance with the replacement schedule - case A stated above and as follows:

and plain flexible pipe coupling or equal.

size of A listed above. Replacement schedule-case shall require using a connecting device of a female plain as listed above. Replacement schedule-case shall replace the pipe with the replacement schedule-case.

The following diagram illustrates the relationship between the various components of the system:

```
graph LR; A[Embankment Area] --- B[Disturbed Within]; B --- C[Right-of-Way]; C --- D[Outslide]
```

**NOTES:**
