

On Tuesday, November 10th, 2020 at 10:12 pm, a WVD entered I-80 going EB in the WB lanes at Dubuque St. The WVD moved into the inside lane and continued past Dodge St beyond the view of ICTV08.

The WVD was never seen on ICTV09, and police swept through at 10:20:50 (the timestamp on ICTV09 footage is 2 min. 53 sec. ahead of actual time).

Between Dodge St and Herbert Hoover Highway, I-80 is continuously separated by a concrete or cable barrier, ruling out the possibility that the WVD crossed over to the EB lanes. This means that the WVD must have turned around at approximately MM 248, outside camera range and before police arrived (JCSO did not find the WVD).
