

On Friday, 8/16/19 at about 9:25 am, a WWD was reported at US-30 & Edgewood Rd (approximately MM 250) traveling EB in the WB lanes. The WWD never appears on CRTV24, CRTV25, CRTV26, or CRTV27. The WWD most likely entered the US-30 WB off-ramp to Edgewood Rd going the wrong way and self-corrected within the portion of the ramp obstructed from the cameras' view.
