

On Sunday 9/22/2019 at about 12:13 am, a WWD was reported traveling EB in the WB lanes of US-30 near I-380. All working cameras showed two police cars with their lights on traveling EB from MM 250-257 at about 12:00 am. ISP could not locate a WWD and one is never seen on the cameras. The most likely situation is that the WWD turned short from Dogwood Ln or County Rd and self-corrected before ISP arrived.
