

On Tuesday, 11/19/2019 at 2:56:57 am, a WWD was seen on DMTV61 entering I-35 traveling NB in the SB lanes from 36th St. The WWD is not seen north of the rest area, so the WWD most likely self-corrected at rest area.

The WWD caused a minor crash (a vehicle avoiding the WWD swerved into the cable barrier).

The WWD was not found by police. Note that the timestamp on footage from DMTV61 is one hour ahead of actual time (its clock was not yet set back for the end of DST).
