

On Monday, January 27th, 2020 at about 8:20 pm, a WWD entered the I-35/I-80 SB exit ramp to University Ave going the wrong way. While still on the ramp, the WWD tried to self-correct by making a U-turn but got stuck in the ditch.

The only camera in the area was DMTV51. DMTV51 was pointing south (away from the ramp) until after the WWD got stuck. Information about the WWD's movements was reported by the Highway Helper.
