

On Tuesday 11/26/2019 at 7:40 pm, a WWD entered the NB lanes of I-29 traveling SB at Nebraska Ave. Immediately after, the WWD pulled off to the right (into the median) and stopped. At 7:47 pm, she was approached by a Highway Helper but drove off the median and departed SB in the SB lanes. She continued EB in the EB lanes of I-80. Near MM 4, the driver lost control and left the roadway to the north (toward the median), into a ditch in the construction zone. She was disoriented and said she had taken sleep medication before driving. Her WWD and self-correction were captured on CBTV17 and her single-vehicle crash can be seen on CBTV57.
