

On Monday, April 6th, 2020 at 5:29 am, a semi truck entered I-80 traveling WB in the EB lanes from IA-21. The truck is seen entering the highway on 80TV202 and driving on the south shoulder. The WWD is never seen on 80TV200 or 80TV198. The WWD was no longer on the highway by 5:44 am (when ISP arrived). The WWD is never seen passing 80TV202 a second time, either going the right way or backing up toward IA-21. Traffic was likely too heavy for the truck to have an opportunity to make a 3-point turn.

Based on this evidence, the most likely sequence of events is that the WWD used the gravel crossover located 1300' west of IA-21 to cross to the WB lanes, and continued traveling WB in the WB lanes.
