MM 292

On Sunday, January 3rd at 4:11 AM, a VVWD was reported going EB in the WB lanes of I-80 around MM 292

No video of this event could be found, but the camera footage from the time frame can still be viewed in the file folder.

QC18

Based on the reported location and the action taken by the camera operator at the time of the event (turned to this intersection), the POE was likely as Northwest Boulevard. The driver likely began moving down the ramp before crossing paths with the 911 caller. The driver then likely self corrected back up the ramp.
